

Environmental Responsibility

One of our commitments is for our environment, the safety and security for **Telefunken Semiconductors**. Several activities and programs are ongoing to improve the environment in reducing waste, power – and water consumption or the use of hazardous chemicals or gases. Safety and security are professionally handled by trained experts. The set up of the respective environmental management system is according ISO 14001.

We ensure a clearly structured organization and clear rules on how to do our business by having a POWERFUL PROCESS MANAGEMENT.
